Email cmm.nsc@gmail.com to sign your team up (max 5 players) or sign up individually!
Laboratory Technician

LOHNES LABORATORY

Desired Qualifications:

- Knowledge and experience in methods in cell and molecular biology;
- Strong organizational skills, attention to detail and effective problem-solving abilities;
- Efficient time management skills;
- Ability to work independently and as part of a team;
- Knowledge and experience in safe laboratory practices;
- Ability to train others in fundamental laboratory techniques;
- Bilingualism along with good interpersonal and communication skills an asset.

The person hired for this position will be responsible for the following routine tasks:

**• General lab maintenance:**
- effective organization of glassware cleaning and sterilization.
- to keep the lab organized and clean.
- to verify and maintain CO₂ tanks and liquid N₂ cryopreservation tanks.
- to ensure all basic laboratory equipment is properly calibrated and functional.

**• General operating tasks:**
- to keep track of inventory for basic lab supplies.
- to prepare order requisitions when needed.
- to obtain orders as they arrive at the Faculty or in local biobars.
- to keep a record of purchase orders and overall expenditures.

**• Mouse colonies:**
- will be responsible for genotyping of common mouse lines used on a regular basis.
- keep meticulous records of mouse stocks including genotypes, age etc.
- establish matings to generate and maintain appropriate mouse lines
- assist with recovery and analysis of mouse embryo or post-partum offspring, including genotyping, analysis (in situ hybridization, immunohistochemistry, tissue processing).

**• Routine laboratory work:**
- molecular biology, including cloning, plasmid preps, RT-PCR, qPCR, chromatin immunoprecipitation, Northern blots, etc.
- basic protein biochemistry, including preparation of subcellular extracts, immunoprecipitation, SDS-PAGE gels, Western blotting.
- ability to learn new techniques is important.

**• Training:**
- to train new lab members in basic laboratory techniques
- to train and assist in supervision of undergraduate students

Please send resume, brief statement of research experience and career goals, telephone number and email addresses of three (3) references to: Dr. David Lohnes (dlohnes@uottawa.ca)
The Faculty of Medicine at the University of Ottawa has resources available to all students in times of need.

COMIC RELIEF

How’s my time?

It took you 365 days again.

Sweet! At least I keep beating Mars.
Academic Information

Verify your academic file

It is very important that you verify your academic and personal information displayed on the Confirmation of Registration in your uoZone (http://uozone.uottawa.ca). Some of the information appears on your permanent official record or transcript. Remember that all changes to your course schedule must be reflected in academic record.

Reminder

The Graduate Student Mentoring Centre provides various workshops such as “Overcoming the Writer’s Block”, “Goal Setting – A Fundamental Skill of every Successful Person”, “Time Management”… http://www.sass.uottawa.ca/includes/pdf/mentoring-atelier.pdf

Did You Know?

All new employees (staff, graduate students, summer students etc.) at the University of Ottawa must undergo health and safety training! The Office of Risk Management and the Faculty of Medicine’s Environmental Health and Safety websites both have lists of all training courses available. Remember, training must be renewed every 4 years. Many external scholarships are conditional upon the trainee having up-to-date training certification. Visit http://www.uottawa.ca/services/ehss/menuTraininglink.htm and http://www.uottawa.ca/services/ehss/register.htm for more details!
